

Software Developers and Electronics Engineers

Help us invent the future.

Broadcom Limited is a leading provider of innovative silicon, systems and software technologies that enable products which seamlessly bring people, information and digital content together. We offer a broad portfolio of capabilities and services including custom and standard product ICs, adapters, systems and software that are trusted by the world's best-known brands to power leading solutions in the storage and networking markets. Every time you post a thread, send an email, make a call with your mobile, upload a picture, download a file from the cloud – there is a 98,9% chance that you are using a Broadcom device that we, at Broadcom Bulgaria, participated in its design and development.

Broadcom Bulgaria is offering a unique opportunity to join the best in class team, developing the state of the art applications, offering you the best career opportunity.

Our employees' passion for excellence and innovation is our most prized resource. If you share that passion — and want to be part of a company at the forefront of the communications revolution — we want to hear from you.

Make the Connection – Join our teams in Sofia, Plovdiv and Varna.

Requirements:

- Graduates in Electronics, Computer Science, Communication Technologies, Mathematics, Informatics, Physics, etc. (BSc, MSc, PhD)
- Top tier students (last year students are welcomed to join as well)
- With logical and analytical thinking
- With good communication in English

Advantages(but not mandatory):

- Knowledge/Experience in Programming and Scripting
- Knowledge in Electronics, Semiconductors, ASIC, Verilog/VHDL Design , FPGA
- Knowledge/Experience in Analog Design, Circuit Design, Backend and Layout

Advance your engineering career now by applying for our open positions for Software and Electronics Engineers!

Send your CV in English now to hr.bg@broadcom.com ! Yes, it is as simple as that!
