

Software Developers and Electronics Engineers

Broadcom Inc. is a leading designer, developer and global supplier of a broad range of analog and digital semiconductor connectivity solutions. Every time you post a thread, send an email, make a call with your mobile, upload a picture, download a file from the cloud – there is a 98,9% chance that you are using a Broadcom device that we, at Broadcom Bulgaria, participated in its design and development.

Our employees' passion for excellence and innovation is our most prized resource. If you share that passion — and want to be part of a company at the forefront of the communications revolution — we want to hear from you.

Broadcom Bulgaria is offering a unique opportunity to join the best in class team, developing the state of the art applications, offering you the best career opportunity.

Make the Connection – Join our team in Varna.

Requirements:

- Graduates in Electronics, Computer Science, Communication Technologies, Mathematics, Informatics, Physics, etc. (BSc, MSc, PhD)
- Top tier students (last year students are welcomed to join as well)
- With logical and analytical thinking
- With good communication in English

Advantages (but not mandatory):

- Knowledge/Experience in Programming and Scripting
- Knowledge in Electronics, Semiconductors, ASIC, Verilog/VHDL Design, FPGA
- Knowledge/Experience in Analog Design, Circuit Design, Backend and Layout

Send your CV in English now! Yes, it is as simple as that!
